Bloom Garden

Celebrate the beauty and diversity of nature with Bloom Garden. A fresh, modern twist on the original Botanic Garden collection first established in 1972.

Light, bright, and uplifting, this contemporary collection brings renewed energy to the table, showcasing beautifully detailed flowers, brought to life in bold, expressive colour.

Made in the UK in our Stoke-on-Trent factory

Each piece passes through at least 22 pairs of hands, drawing on years of skill and craftsmanship to create timeless pieces for the home.

Ideal for mixing and matching with the original Botanic Garden collection...

...or simply enjoying as a modern
twist on a heritage classic.
