Juno

Juno was designed to blend the familiar with the modern.

The bowls, broad and graceful, taper delicately for a silhouette that is both inviting and elegant.

Throughout the range, each piece echoes this design in a subtly different way, creating a cohesive collection with a striking silhouette.

Stemmed glasses in the Juno collection are further distinguished by the way the stems are pulled directly from the bowl, creating a delicate teardrop dimple at the base of each piece.

Egg Coddlers

BIA's reinvention of the egg coddler with modern designs was first brought in at the very end of 2015, and was an instant hit!

A clean and simple way of poaching eggs, the coddlers are easy to use. Simply add oil or butter to the inside, crack in an egg or two, add any ingredients you wish, gently screw the lid back on, and add to boiling water for around ten minutes. Once ready, you can eat it straight from the coddler.

Eggs have always been a popular breakfast, but poaching eggs can be a messy business! The ease of using the egg coddler, coupled with the ability to add ham and cheese, smoked salmon and cracked pepper, or whatever else you like, makes the coddler a fantastic item!

All designs come gift boxed with serving suggestions, and the majority come in a counter display unit in packs of six.
