Portmeirion Minerals 2026 Katalog

Portmeirion Group 2026

Portmeirion Minerals

Invigorate the senses with nature-inspired glazes, tactile shapes, and effortless beauty. Portmeirion Minerals is a celebration of time-honoured techniques and the beauty of nature, blending honest materials with skilful craft for a collection made with purpose.

Crafted in Portugal, a palette of harmonious colours in moonstone, rose quartz, aquamarine, jade and amethyst, washes over textured curves; shades and shapes that blend seamlessly with your space.

Consciously designed, the stoneware is once fired, made from recycled clay, and is finished with a reactive glaze making every piece wonderfully unique. Beautifully presented in recyclable packaging, from the hands that shape it to the home that treasures it, Portmeirion Minerals is made to love and made to last.
